## Protect your investment and extend the life of your vehicle with a Electronic Corrosion Control (E.C.C.) Module.

While automakers continuously improve the quality of vehicles, the problem of rust formation continues. Rust and corrosion shortens the life of your vehicle and can lead to costly repairs. The E.C.C. Module helps protect your investment.

- Proven effective in inhibiting rust and corrosion
- Protects areas that traditional rust protection cannot reach
- Patented technology
- Made in Canada
- Environmentally safe and clean
- Lifetime new-vehicle warranty, pre-owned warranty also available

## Sharkskin Plus® Ceramic Interior Protection

Sharkskin Plus® Protection is the next generation Ceramic protective coating for all automotive surfaces. Once applied, the advanced Ceramic coating in Sharkskin Plus® form a protective layer that bonds to the applied surface and repels pollutants and contaminants.

### Upholstery Protection

- Helps keep upholstery looking new and clean longer
- Helps repel liquids and block stains
- Does not alter the look and feel of the upholstery
- Resistant against bacteria and mould
- Contains no toxic chemicals

## Sharkskin Plus® Graphene Ceramic Exterior Protection

### Paint & Wheel Application

- Reduced Graphene-Oxide increases coating strength, hydrophobicity, and makes the coating more resistant to detergents compared to traditional ceramic coatings
- Protects against weather, oxidation, pollutants and contaminants.
- Eliminates the need for waxing and makes treated surfaces easier to clean

### Glass and Mirror Application

- Increases safety by improving visibility of the windshield, side windows, rear windows, and side mirrors through rain and snow
- Extends wiper life by reducing the need for wiper usage

### Unpainted Plastic & Soft Top Application

- Protect the factory look and feel of unpainted plastic trims and repel pollutants and contaminants
- Protects convertible softtops and repels liquids and contaminants.
